There are currently more than 178,000 CFA® Charterholders working in over 170 countries and regions. In 2023, the requirements to earn the CFA® charter were updated to include the addition of professional references and a revision to the work experience requirement, now defined as at least 4,000 hours of relevant work experience over at least 36 months.

High Ethical Standards

The CFA Institute Code of Ethics and Standards of Professional Conduct, enforced through an active professional conduct program, require CFA® Charterholders to:

- Place their clients' interests ahead of their own
- Maintain independence and objectivity
- Act with integrity
- Maintain and improve their professional competence
- Disclose conflicts of interest and legal matters

Global Recognition

Passing the three CFA exams is a difficult feat that requires extensive study (successful candidates report spending an average of 300 hours of study per level). Earning the CFA® charter demonstrates mastery of many of the advanced skills needed for investment analysis and decision making in today's quickly evolving global financial industry. As a result, employers and clients are increasingly seeking CFA® Charterholders —often making the charter a prerequisite for employment. Additionally, regulatory bodies in 38 countries/territories recognize the CFA® charter as a proxy for meeting certain licensing requirements, and more than 466 colleges and universities around the world have incorporated a majority of the CFA Program curriculum into their own finance courses.

Comprehensive and Current Knowledge

The CFA Program curriculum provides a comprehensive framework of knowledge for investment decision making and is firmly grounded in the knowledge and skills used every day in the investment profession. The three levels of the CFA Program test a proficiency with a

wide range of fundamental and advanced investment topics, including ethical and professional standards, fixed-income and equity analysis, alternative and derivative investments, economics, financial reporting standards, portfolio management, and wealth planning.

The CFA Program curriculum is updated every year by experts from around the world to ensure that candidates learn the most relevant and practical new tools, ideas, and investment and wealth management skills to reflect the dynamic and complex nature of the profession.

- Disclose conflicts of interest and legal matters

Global Recognition

Passing the three CFA exams is a difficult feat that requires extensive study (successful candidates report spending an average of 300 hours of study per level). Earning the CFA® charter demonstrates mastery of many of the advanced skills needed for investment analysis and decision making in today's quickly evolving global financial industry. As a result, employers and clients are increasingly seeking CFA® Charterholders —often making the charter a prerequisite for employment. Additionally, regulatory bodies in 38 countries/territories recognize the CFA® charter as a proxy for meeting certain licensing requirements, and more than 466 colleges and universities around the world have incorporated a majority of the CFA Program curriculum into their own finance courses.

Comprehensive and Current Knowledge

The CFA Program curriculum provides a comprehensive framework of knowledge for investment decision making and is firmly grounded in the knowledge and skills used every day in the investment profession. The three levels of the CFA Program test a proficiency with a wide range of fundamental and advanced investment topics, including ethical and professional standards, fixed-income and equity analysis, alternative and derivative investments, economics, financial reporting standards, portfolio management, and wealth planning.

The CFA Program curriculum is updated every year by experts from around the world to ensure that candidates learn the most relevant and practical new tools, ideas, and investment and wealth management skills to reflect the dynamic and complex nature of the profession.

Licensed Insurance Agent. Mr. Ellsworth, in his individual capacity, is a licensed insurance agent, and may recommend the purchase of certain insurance-related products on a commission basis. Clients can engage Mr. Ellsworth to effect insurance transactions on a commission basis. Conflict of Interest: The recommendation by Mr. Ellsworth that a client purchase an insurance commission product presents a conflict of interest, as the receipt of commissions may provide an incentive to recommend investment products based on commissions received, rather than on a particular client's need. Clients are reminded that they may purchase insurance products recommended by the Registrant through other, non-affiliated insurance agents. The Registrant's Chief Compliance Officer, Mary Keegan, remains available to address any questions that a client or prospective client may have regarding the above conflict of interest.

ITEM 5. ADDITIONAL COMPENSATION

Mr. Ellsworth's annual compensation is based, in part, on the number of clients that Mr. Ellsworth introduces to the Registrant. Accordingly, Mr. Ellsworth has a conflict of interest for recommending the Registrant to clients for investment advisory services, as the recommendation could be made on the basis of compensation to be received, rather than on a client or prospective client's best interests.

ITEM 6. SUPERVISION

The Registrant provides investment advisory and supervisory services in accordance with the Registrant's policies and procedures manual. The primary purpose of the Registrant's Rule 206(4)-7 policies and procedures is to comply with the supervision requirements of Section 203(e)(6) of the Investment Advisers Act of 1940 (the "Act"). This includes a commitment to CFP Board, as part of the certification, to act as a fiduciary, and therefore, act in the best interests of the client, at all times when providing financial advice and financial planning. CFP Board may sanction a CFP® professional who does not abide by this commitment, but CFP

Board does not guarantee a CFP® professional's services. A client who seeks a similar commitment should obtain a written engagement that includes a fiduciary obligation to the client.

- Continuing Education – Complete 30 hours of continuing education every two years to maintain competence, demonstrate specified levels of knowledge, skills, and abilities, and keep up with developments in financial planning. Two of the hours must address the Code and Standards.

Therefore, he may refer to himself as a CERTIFIED FINANCIAL PLANNER™ professional or a CFP® professional, and he may use these and CFP Board's other certification marks (the "CFP Board Certification Marks") that Certified Financial Planner Board of Standards Center for Financial Planning, Inc. has licensed to CFP Board in the United States. The CFP® certification is voluntary. No federal or state law or regulation requires financial planners to hold the CFP® certification. You may find more information about the CFP® certification at www.cfp.net.

CFP® professionals have met CFP Board's high standards for education, examination, experience, and ethics. To become a CFP® professional, an individual must fulfill the following requirements:

- Education – Earn a bachelor's degree or higher from an accredited college or university and complete CFP Board-approved coursework at a college or university through a CFP Board Registered Program. The coursework covers the financial planning subject areas CFP Board has determined are necessary for the competent and professional delivery of financial planning services, as well as a comprehensive financial plan development capstone course. A candidate may satisfy some of the coursework requirement through other qualifying credentials. CFP Board implemented the bachelor's degree or higher requirement in 2007 and the financial planning development capstone course requirement in March 2012. Therefore, a CFP® professional who first became certified before those dates may not have earned a bachelor's or higher degree or completed a financial planning development capstone course.
- Examination – Pass the comprehensive CFP® Certification Examination. The examination is designed to assess an individual's ability to integrate and apply a broad base of financial planning knowledge in the context of real-life financial planning situations.
- Experience – Complete 6,000 hours of professional experience related to the personal financial planning process, or 4,000 hours of apprenticeship experience that meets additional requirements.

- Ethics – Satisfy the Fitness Standards for Candidates for CFP® Certification and Former CFP® Professionals Seeking Reinstatement and agree to be bound by CFP Board's Code of Ethics and Standards of Conduct ("Code and Standards"), which sets forth the ethical and practice standards for CFP® professionals.

Individuals who become certified must complete the following ongoing education and ethics requirements to remain certified and maintain the right to continue to use the CFP Board Certification Marks:

- Ethics – Commit to complying with CFP Board's Code and Standards. This includes a commitment to CFP Board, as part of the certification, to act as a fiduciary, and therefore, act in the best interests of the client, at all times when providing financial advice and financial planning. CFP Board may sanction a CFP® professional who does not abide by this commitment, but CFP Board does not guarantee a CFP® professional's services. A client who seeks a similar commitment should obtain a written engagement that includes a fiduciary obligation to the client.
- Continuing Education – Complete 30 hours of continuing education every two years to maintain competence, demonstrate specified levels of knowledge, skills, and abilities, and keep up with developments in financial planning. Two of the hours must address the Code and Standards.

There are currently more than 190,000 CFA® Charterholders working in over 170 countries and regions. To earn the CFA® charter, candidates must: (1) pass three sequential examinations; (2) have at least 4,000 hours of relevant work experience over 36+ months; (3) be a member of the CFA Institute and have the required professional references; and (4) commit to abide by, and annually reaffirm, their adherence to the CFA Institute Code of Ethics and Standards of Professional Conduct.

High Ethical Standards

The CFA Institute Code of Ethics and Standards of Professional Conduct, enforced through an active professional conduct program, require CFA® Charterholders to:

- Place their clients' interests ahead of their own
- Maintain independence and objectivity
- Act with integrity
- Maintain and improve their professional competence
- Disclose conflicts of interest and legal matters

Global Recognition

Passing the three CFA exams is a difficult feat requiring extensive study, where successful candidates report spending an average of 300 hours of study per level. Earning the CFA® charter demonstrates mastery of many of the advanced skills needed for investment analysis and decision making in today's quickly evolving global financial industry. As a result, employers and clients are increasingly seeking CFA® Charterholders – often making the charter a prerequisite for employment. Additionally, regulatory bodies in 38 countries/territories recognize the CFA® charter as a proxy for meeting certain licensing requirements, and more than 466 colleges and universities around the world have incorporated a majority of the CFA Program curriculum into their own finance courses.

A candidate may satisfy some of the coursework requirement through other qualifying credentials. CFP Board implemented the bachelor's degree or higher requirement in 2007 and the financial planning development capstone course requirement in March 2012. Therefore, a CFP® professional who first became certified before those dates may not have earned a bachelor's or higher degree or completed a financial planning development capstone course.

- Ethics – Commit to complying with CFP Board's Code and Standards. This includes a commitment to CFP Board, as part of the certification, to act as a fiduciary, and therefore, act in the best interests of the client, at all times when providing financial advice and financial planning. CFP Board may sanction a CFP® professional who does not abide by this commitment, but CFP Board does not guarantee a CFP® professional's services. A client who seeks a similar commitment should obtain a written engagement that includes a fiduciary obligation to the client.

- Continuing Education – Complete 30 hours of continuing education every two years to maintain competence, demonstrate specified levels of knowledge, skills, and abilities, and keep up with developments in financial planning. Two of the hours must address the Code and Standards.

Professional Designations

Ms. Wilcox is certified for financial planning services in the United States by Certified Financial Planner Board of Standards, Inc. ("CFP Board"). Therefore, she may refer to herself as a CERTIFIED FINANCIAL PLANNER™ professional or a CFP® professional, and she may use these and CFP Board's other certification marks (the "CFP Board Certification Marks") that Certified Financial Planner Board of Standards Center for Financial Planning, Inc. has licensed to CFP Board in the United States. The CFP® certification is voluntary. No federal or state law or regulation requires financial planners to hold the CFP® certification. You may find more information about the CFP® certification at www.cfp.net.

CFP® professionals have met CFP Board's high standards for education, examination, experience, and ethics. To become a CFP® professional, an individual must fulfill the following requirements:

- Education – Earn a bachelor's degree or higher from an accredited college or university and complete CFP Board-approved coursework at a college or university through a CFP Board Registered Program. The coursework covers the financial planning subject areas CFP Board has determined are necessary for the competent and professional delivery of financial planning services, as well as a comprehensive financial plan development capstone course. A candidate may satisfy some of the coursework requirement through other qualifying credentials. CFP Board implemented the bachelor's degree or higher requirement in 2007 and the financial planning development capstone course requirement in March 2012. Therefore, a CFP® professional who first became certified before those dates may not have earned a bachelor's or higher degree or completed a financial planning development capstone course.
- Examination – Pass the comprehensive CFP® Certification Examination. The examination is designed to assess an individual's ability to integrate and apply a broad base of financial planning knowledge in the context of real-life financial planning situations.
- Experience – Complete 6,000 hours of professional experience related to the personal financial planning process, or 4,000 hours of apprenticeship experience that meets additional requirements.
- Ethics – Satisfy the Fitness Standards for Candidates for CFP® Certification and Former CFP® Professionals Seeking Reinstatement and agree to be bound by CFP Board's Code of Ethics and Standards of Conduct ("Code and Standards"), which sets forth the ethical and practice standards for CFP® professionals.

Individuals who become certified must complete the following ongoing education and ethics requirements to remain certified and maintain the right to continue to use the CFP Board Certification Marks:

- Ethics – Commit to complying with CFP Board's Code and Standards. This includes a commitment to CFP Board, as part of the certification, to act as a fiduciary, and therefore, act in the best interests of the client, at all times when providing financial advice and financial planning. CFP Board may sanction a CFP® professional who does not abide by this commitment, but CFP Board does not guarantee a CFP® professional's services. A client who seeks a similar commitment should obtain a written engagement that includes a fiduciary obligation to the client.
- Continuing Education – Complete 30 hours of continuing education every two years to maintain competence, demonstrate specified levels of knowledge, skills, and abilities, and keep up with developments in financial planning. Two of the hours must address the Code and Standards.

Ms. Wilcox has held the designation of Chartered Financial Consultant (ChFC®) since 2022. The ChFC® designation is awarded by The American College, an accredited private educational institution that offers both undergraduate and graduate training programs. Prerequisites include high school education and three years of full-time business experience within the five years preceding the awarding of the designation. Average study time to earn the ChFC® exceeds 450 hours, to complete the 8 required college-level courses and pass the final exam for each course. Required courses cover topics, including retirement and estate planning; insurance planning; financial process and environment, income tax planning; employee benefits planning; asset protection planning and estate tax, transfer tax, and gift tax planning; and applications of comprehensive financial planning and consulting. Certification requires 30 CE credits every two years. ChFC® charterholders are held to a fiduciary standard and agree to comply with The American College code of ethics and procedures.

Ms. Wilcox holds the designation of Certified Trust and Financial Advisor (CTFA). The CTFA designation identifies individuals who have completed certain requirements mandated by the Institute of Certified Bankers (ICB). Candidates must pass a comprehensive exam and meet the following requirements: 1) must have a minimum of three (3) years' experience in wealth management and complete an ICB wealth management-training program or have five (5) years' experience in wealth management and a bachelor's degree or have at least ten (10) years' experience in wealth management; 2) must provide the ICB with a letter of recommendation; 3) must agree to ICB's Professional Code of Ethics; 4) must pay an annual fee and 5) must complete forty five (45) continuing education credits every three (3) years.

ITEM 3. DISCIPLINARY INFORMATION

Waldron Private Wealth is required to disclose information regarding any legal or disciplinary events material to a client's evaluation of Lindsay Wilcox. Waldron Private Wealth has no information to disclose in relation to this Item.

ITEM 4. OTHER BUSINESS ACTIVITIES

Waldron Private Wealth is required to disclose information regarding (1) any investment-related business or occupation and (2) any non-investment related business or occupation for compensation in which Lindsay Wilcox is actively engaged.

Licensed Insurance Agent. Ms. Wilcox, in her individual capacity, is a licensed insurance agent, and may recommend the purchase of certain insurance-related products on a commission basis. Clients can engage Ms. Wilcox to purchase insurance products on a commission basis. Conflict of Interest: The recommendation by Ms. Wilcox that a client purchase an insurance commission product presents a conflict of interest, as the receipt of commissions may provide an incentive to recommend insurance products based on commissions to be received, rather than on a particular client's need. No client is under any obligation to purchase any insurance commission products from Ms. Wilcox. Clients are reminded that they may purchase insurance products recommended by Ms. Wilcox through other, non-affiliated insurance agents. The Registrant's Chief Compliance Officer, Mary Keegan, remains available to address any questions that a client or prospective client may have regarding the above conflict of interest.

ITEM 5. ADDITIONAL COMPENSATION

Ms. Wilcox's annual compensation is based, in part, on the number of clients that Ms. Wilcox introduces to the Registrant. Accordingly, Ms. Wilcox has a conflict of interest for recommending the Registrant to clients for investment advisory services, as the recommendation could be made on the basis of compensation to be received, rather than on a client or prospective client's best interests.

ITEM 6. SUPERVISION

The Registrant provides investment advisory and supervisory services in accordance with the Registrant's policies and procedures manual. The primary purpose of the Registrant's Rule 206(4)-7 policies and procedures is to comply with the supervision requirements of Section 203(e)(6) of the Investment Advisers Act of 1940 (the "Act"). The Registrant's Chief Compliance Officer, Mary Keegan, is primarily responsible for the implementation of the Registrant's policies and procedures and overseeing the activities of the Registrant's supervised persons. Should an employee, independent contractor, investment adviser representative, or promoter of the Registrant have any questions regarding the applicability/relevance of the Act, the Rules thereunder, any section thereof, or any section of the policies and procedures, he/she should address those questions with the Chief Compliance Officer. Should a client have any questions regarding the Registrant's supervision or compliance practices, please contact Ms. Keegan at (412) 221-1005.
